<ul style="list-style-type: none">- Provided University community with phone and in-person support- Minor Desktop/Printer troubleshooting- Diagnosing and reporting network issues	

Projects

Personal Website: www.jacksiu.net (For additional information and projects).

Jade Harbor

- Website application for local chinese restaurant
- It is mobile friendly and responsive with the help of bootstrap
- Contains a form for contact that sends complaints/reviews to a specific email

Restaurant Roulette

- Chooses a random restaurant based on user input (City)
- Uses a restaurant themed API to provide data
- Client-side friendly with on page-render with React

AI Puzzle Solver

- Uses different algorithms to solve a random puzzle board with input dimensions
- Algorithms include BFS, Hill Climbing, Shortest Path, A*, Genetic
- Through multiple runs of Hill Climbing and Genetic Approach, the board can help improve in order to provide a faster and more efficient solution

Skills

Software/Languages: (*proficient*) HTML/CSS, JS, Java (*familiar*) C, Python, Bootstrap, JQuery, React, Node
Environments: VS Code, Atom, Eclipse, Matlab, Linux, Git, Adobe XD
